Maaden Careers In Saudi Arabia

### About [Maaden](#):

Maaden today is among the fastest-growing mining companies in the world and the largest multi-commodity mining and metals company in the Middle East. We are ranked among the top 10 global mining companies based on market capitalization.

We had come a long way since 1997, when the company was established by royal decree with a mandate to develop Saudi Arabia's minerals sector as the third pillar of Saudi industry, beyond oil

and petrochemicals.

Maaden™ was wholly owned by the Saudi Government until 2008 when half its shares were floated on the Saudi Stock Exchange (Tadawul). In June 2018, the government holding went up with the Public Investment Fund (PIF) increasing its shareholding to 65.44%.

After investing significant effort, time and resources in building a world-class, unique and fully integrated mining value chain, we are now focused on marketing our products worldwide, improving the return on our investments and consolidating our resources and experience – even as we continue to develop new locations and build new industrial plants.

Since our IPO, Maaden™ has diversified from being a gold-producing company by building abundant, world-class phosphate, aluminium, industrial minerals and copper concentrate operations. In the process, we have:
